

FRED BROOKS GOES TO PRISON

In Judge Harris' division of the district court, this morning, Fred Brooks pleaded guilty to the charge of burglary in the third degree and he was sentenced to six months in the state penitentiary.

It will be recalled that Brooks burglarized the Weber Lumber company's office on Wall avenue a few weeks ago and stole a number of door locks, saws and other articles. He also pried open the inner door of the safe.

He will be taken to the state penitentiary some time tomorrow.

P. J. MORAN IS GIVEN BIG CONTRACT

At the meeting of the city board of commissioners this morning the bids of P. J. Moran, a Salt Lake contractor, for the paving of Grant avenue, between Twenty-third and Twenty-fourth streets and the intersection of Washington avenue and Twenty-fifth street, were accepted and the record authorized to execute the contract. The paving is to be done in the near future.

The district is known as District 103, and it embraces Fowler avenue, which is between Twenty-fifth and Twenty-sixth streets, and between Quincy and Jackson avenues, but because of the persistent protests against the paving of Fowler avenue at this time, the commissioners concluded to eliminate it from this contract. The commissioners state that they will retain jurisdiction over Fowler avenue and will pave it at some future time.

The bids also included repair work of Twenty-fifth street from Wall to Washington avenue and Twenty-fourth from Grant to Washington. The price fixed for this work being \$1.75 per square yard.

The price for the other work is as follows:

Grant avenue, between Twenty-

MONEY TRUST SUIT IS RESUMED TODAY

New York, June 11.—With the resumption today of the so-called money trust investigation by the Pujol committee of the house of representatives, Chairman Pujol made public a letter he had written to Frank A. Vandervlip, chairman of the New York clearing house committee.

The letter was an answer to one from Mr. Vandervlip in which Mr. Vandervlip charged that "thus far the disposition of the committee, as reflected in the attitude of its counsel, has not so much to limit the evidence as to support, if possible, a preconceived assumption."

"It is manifest," says Mr. Pujol, "that you have not read the official notes of the testimony of Mr. Sherer, the manager of the New York clearing house statement, as your statements are not in accord with the record."

He adds that all persons having knowledge of the situation have been invited to appear before the committee and that in response to this "fair and proper invitation," Mr. Vandervlip has seen fit, instead of acting on the suggestion, "to indulge in what seems to us a most unjust and unwarranted attack."

SPEEDING OF THE MOTOR RIDERS

Editor Standard: If Sheriff Harrison will use his office to stop the dangerous speed fiends on their motorcycles from putting in danger the lives of the people, who are compelled to use the public highways, he will receive their thanks.

Last evening, in coming from Stratford's store in Wilson to the west end of the viaduct, we met and passed by seven motorcycles, a majority of whom were exceeding the speed limit very much. Three of the numbers are worthy of special mention as riding at least twenty miles per hour. One was riding a yellow one No. 49, the other a red one. One was going so fast we could not see the number. This happened near the James Stone home, a little west of the D. & R. G. tracks. Another cycle, No. 7, was worse than the last named for fast riding. He lives in Wilson Lane and imagines he has a right to burn the road up with speed. We met him between the Weber river bridge and the viaduct, where he was speeding. Something should be done with these speed fiends. It is but a little while back when a buggy-load of women was thrown out by the horse becoming scared at a speeding motorcycle. Nothing was done with him because no one knew who he was or his number.

Mr. Editor, can a speeding cyclist or automobilist be arrested upon complaint of two or more persons because of their speeding? If so, then the people have a weapon in their hands by which they can obtain due regard for their rights on the roads of the county and thereby bring the speed fiends to their senses. Yours truly,

(Signed) EDWARD WALKER.

CHANGES AT TELEPHONE OFFICE

Within the next few days there will be a change in the local management of the Mountain States Telephone and Telegraph company, in which W. F. Madison is to be given a promotion and Sam J. Jones of Provo will be called to fill the position of local manager.

Mr. Madison will be placed in the position of assistant superintendent of the northern division of the company's service, which places him in a wider field of operation and enlarges his duties.

The new manager has been associated with the telephone companies of the state for a number of years, first as manager at Provo for the Bell company and later acting as field superintendent for the Mountain States company after the consolidation of the two other companies, operating from Provo as far south as Beaver.

Mr. Jones was in the city today and he stated that he would move his family to Ogden during the present week. He will take charge of the Ogden office on his return from Provo.

MINING NEWS

COLORADO WILL PAY THE USUAL DIVIDEND

The directors of the Colorado Mining company on Monday met and declared the regular quarterly dividend of 3 cents a share, being payable on June 25, the checks closing June 18. This will amount to \$30,000, and brings the total dividends to date to \$2,570,000, or \$2.57 per share. The officials felt that this sum could be spared from the treasury despite the extensive amount of development work being done at the time. The most interesting bit of effort is that of cross-cutting on the 1900-foot level of the Crown Point shaft to explore the Colorado ground at heretofore unattempted depths.

INDIAN QUEEN WILL NOT RENEW LEASE

It is stated that the directors of the Indian Queen company will not renew the lease of the property to the interests that have operated under a lease for a year or more past, which is one way of stating it that the company will get to work and operate the mine for the company's sake. The lessees have opened a very comfortable amount of ore during their operations and it is stated that there is plenty of new ore left in sight. The lessees will terminate their activities on June 23.

SWANSEA KEEPS UP STEADY ORE TONNAGE

The Swansea Consolidated company according to Tintic reports, is sending out seventy-five tons of ore daily on the average and reports have it that the ore is netting about \$7 per ton. From May 16 to June 8 the shipments brought in \$10,000 or thereabouts, which sum is tucked away in the bank for future development purposes. The result during the past few days have not been up to the average as the expense of handling the water has been somewhat higher than usual.

THE SECOND SHIPMENT OF 300 TITANIC BOOKS ARRIVED TODAY AT THE STANDARD OFFICE. THOSE WHO HAVE PAID FOR THE SAME SHOULD CALL AT ONCE.

BIRTHDAY PARTY.

Petite June Geiger was the merry little hostess at a beautifully appointed party Saturday, June 8, when twenty-one children were bidden to celebrate the fourth birthday anniversary of the wee miss.

The home was beautifully decorated in pink and white, the dainty color scheme being carried out in most artistic and painstaking fashion throughout.

Lovely pink and white peonies and other flowers, pink and white ribbons and dainty china and glass combined with the effective arrangement of delicious confections, cakes, ices and fruits, the beautiful duck pond that was an especial source of delight to the happy little guests and the cute little favors, a duck, a tiny black doll and a white one which were attached to long pink ribbons running from the grasses surrounding the pond which formed the centerpiece to each plate and cunningly hidden from sight until drawn forth by some chubby hand at the far side or end of the table, all added to the charm of the occasion.

Games and contests were entered into with all the zeal of happy childhood and each little guest brought a

WEDDING ANNIVERSARY

Mr. and Mrs. Charles Schmalz entertained thirty-five relatives and friends Sunday, June 9, at their spacious country home in Uintah, the occasion being their fortieth wedding anniversary.

Eleven sons and daughters with their families were present to join in warm congratulations and words of loving cheer to the silver-haired father and mother who reared them all so happily and received each and all with the old-time gaiety that always prevailed the Schmalz home.

The house was fragrant and beautiful with roses, snowballs and ferns and the wedding banquet table groined beneath its load of delicious viands, such as only the well-to-do country home can provide. Music, old-time and new-time songs, in keeping with the day and time, toasts to the bride and groom of forty years ago with happy responses and gifts, beautiful and appropriate, were features of the occasion.

BOXERS INCREASE AMOUNT OF WORK

Las Vegas, N. M., June 11.—Jack Johnson and Jim Flynn have lengthened their road runs and boxing bouts in preparation for their world's championship battle here July 4. The sparring practice at both camps has been extended from six and nine rounds to 15 rounds daily, resulting in a noticeable reduction in weight. Today Johnson tipped the scales at 221 pounds and Flynn at 198.

Tommy Ryan, chief trainer at the Flynn camp, has begun to box with his pupil, Tom Flannigan, chief

trainer for Johnson, is expected to reach the champion's camp from Toronto, June 15.

A reform will be selected as soon as Johnson has passed upon the list of eligibles, it was announced today.

MAY BE NEW VOLCANOES INTERIOR OF ALASKA.

Seattle, Wash., June 11.—The ashes that are falling in Fairbanks, Alaska, and Dawson, Yukon Territory, in the Yukon valley, far from the coast, are believed to have come from a new volcanic center in the Alaska range.

The winds that blow from the ocean encounter high ranges of mountains before reaching the Yukon. The same mountain ranges would prevent ashes from the coast volcanoes, which are all near tidewater, from reaching the interior.

Persons arriving at Fairbanks from the Mount Hayes country, and who had not been informed of the outbreak in the Aleutian range, reported canonading as of a volcano in the vicinity of Mount Hayes.

These sounds could not have been blown from the coast.

No word has been received today from the revenue cutters and the wireless is still out of business. Probably the next news from Kodiak will be brought to Seward by steamer.
